

James Beaufort

Frontend Developer & Designer

james.beaufort@example.com | +1 (555) 123-4567 | Chennai, India | linkedin.com/in/jamesbeaufort

PROFILE

Frontend developer with a strong foundation in HTML, CSS, and JavaScript, focused on building clean, responsive, and user-friendly websites. Experienced in translating designs into functional interfaces and comfortable working across the full front-end build process.

SKILLS

HTML5 • CSS3 (Flexbox & Grid) • JavaScript (ES6+) • Responsive Web Design • Git & GitHub • REST APIs • UI/UX Basics

PROJECTS

Resume Builder

Personal Project

Built an interactive web app that lets users fill in a form and generate a formatted, downloadable resume in real time.

E-Commerce Website

Personal Project

Developed a responsive online store front-end with product listings, a shopping cart, and a checkout flow.

Mini Game

Personal Project

Created a browser-based mini game using JavaScript, covering game logic, DOM manipulation, and event handling.

EDUCATION

B.Sc. in Computer Science
